# We know What works

24 X 7 Support

10+ years Experience in Electrical

## MCC PANEL MOTOR CONTROL

They integrate motor starters and overload relays, allowing for efficient motor operation and protection.

- ✓ Power : 0.525HP to 200HP
- ✓ Voltage Rating: 415V to 690V AC
- ✓ Current Rating: 10A to 1000A
- ✓ Frequency: 50Hz or 60Hz

## APFC Panel Automatic Power Factor Correction

Automatically improves power factor by switching capacitors, reducing energy losses and lowering electricity costs

- ✓ Power : 1Kvar to 200Kvar
- ✓ Voltage Rating: 415V to 690V AC
- ✓ Current Rating: 10A to 1000A
- ✓ Frequency: 50Hz or 60Hz

Starts From **Pumping stations, fans and compressors**

Starts From **Motor-driven machinery, Metal working industries**

## EB/SOLAR/GENSET NET METERING BUS BAR PANEL

Manages power for lighting circuits, featuring dimmers and timers to optimize energy consumption and control

- ✓ Voltage Rating: 415V AC
- ✓ Current Rating: 10A to 200A
- ✓ Frequency: 50Hz or 60Hz

## LT CT PANEL EB METER

EB meters that monitor power consumption and voltage, providing data for optimizing energy efficiency.

- ✓ Voltage Rating: 415V AC
- ✓ Current Rating: Up to 1000A
- ✓ Frequency: 50Hz or 60Hz

Starts From **Commercial Buildings, Malls, Warehouses, Banks**

Starts From **Residential and commercial buildings**

## PDB PANEL POWER DISTRIBUTION

Distributes power to multiple circuits with circuit breakers for protection, ensuring reliable and safe operation.

- ✓
- ✓

## PCC PANEL POWER CONTROL CENTRE

It centralizes control and monitoring, providing overload protection and fault management.

- ✓ Voltage Rating: 415V to 690V AC
- ✓ Current Rating: 100A to 1000A
- ✓ Frequency: 50Hz or 60Hz

Starts From **Machinerys, Heating and ventilation**

Starts From **Water Treatment, Chemical plants**

## VFD PANEL VARIABLE FREQUENCY DRIVE

VFDs regulate motor speed and torque by adjusting the frequency and voltage supplied, enhancing efficiency.

- ✓ Power : 1 HP to 600HP
- ✓ Voltage Rating: 230V, 415V AC
- ✓ Current Rating: 1A to 1000A
- ✓ Frequency: 50Hz or 60Hz

## ATS PANEL Automatic Transfer Switch

ATS panels facilitate the automatic switching of power supply from the main source to a backup source

- ✓ Voltage Rating: 415V AC
- ✓ Current Rating: 63A to 200A
- ✓ Frequency: 50Hz or 60Hz

Starts From **Cooling tower fans, Conveyors, Boilers and chillers**

Starts From **Hospitals, Data Centers, Restaurants**

## MACHINE AUTOMATION PANEL PLC-HMI-CONTROL

An automation control panel is a centralized system that controls automated machines and processes in industrial settings, to operate medium to heavy duty machinery and equipment.

- ✓ Voltage Rating: 230V, 415V AC
- ✓ Current Rating: 1A to 1000A
- ✓ Frequency: 50Hz or 60Hz

## SCADA SYSTEM PLANT AUTOMATION

Starts From **Processing Plants, SPM Machines, Line Automation**

Starts From **Processing Plants, SPM Machines, Line Automation**

## Our Brands

# Highlighted Projects

Explore our latest achievements and innovations in our Recent Projects Showcase, where we highlight our most cutting-edge work.

- ✔ Hydraulic Load Testing
- ✔ Auto Batching Plant
- ✔ Leak Test Equipment
- ✔ Automatic Blower Control
- ✔ Hose Cutting Machine
- ✔ Textile Machines
- ✔ Water Pumping Stations
- ✔ LNG Storage System
